

July 2026

To Our Valued Customers,

NYK Trading Corporation
Maritime Business Group

**Notice of End of Maintenance Support for AMCO-NETWORK Power Line Communication
Equipment for Bridge Navigational Watch Alarm System**

Thank you very much for your patronage of our products.

Our product AMCO-NETWORK Power Line Communication Equipment for Bridge Navigational Watch Alarm System has been widely adopted in numerous vessels since its launch in 2011.

The sales of products were discontinued in 2020, and we have supported its maintenance after the discontinuation.

However, due to the discontinuation of production of critical electrical components by their manufacturers, these parts have become increasingly difficult to procure. Therefore, we regret to inform you that we will discontinue the maintenance support as of March 31, 2028.

Until then, we will continue to provide maintenance services as usual within the range of our current parts inventory. However, please be advised that depending on the availability of parts, maintenance services may be discontinued before the scheduled end date, or we may be unable to accommodate your service requests.

We would like to express our sincere gratitude for your long-standing support of AMCO-NETWORK and kindly ask for your continued understanding and support of our products in the future.
